

*Survey of Parishioners' Priorities for Capital Improvements at St. John in the Wilderness
(Annual Meeting, January 21, 2018)*

In 2017, a Capital Campaign Committee was formed to coordinate the fundraising effort for long-term needs of St. John's buildings and grounds.

With our architectural and engineering reports in hand, we expect to have the funds to initiate a number of repairs (such as Rectory painting and porch repair) and updates of existing heating and cooling equipment.

In addition, we would like to get the parishioners' input on prioritizing the following items. Please indicate in order of preference (#1 for highest priority, down to #5 for lowest priority) for the following options:

___ Resolve handicap access to Church

___ Improve egress from undercroft

___ Improve parking around Church and surroundings

___ Upgrade Church interior (painting and pew repairs)

___ Air conditioning of Church

Other(s): _____

Thank you very much! – Capital Campaign Committee

Name (optional) _____
